Liberty Loan Meeting!

If you are patriotic, if you are for the BOYS in and on their way to France and wish to have a part in upholding their hands in the hour of need, don't fail to attend the BIG meeting here Saturday. Come and bring your family, to hear the splendid address by Hon. Henry Hughes, of Paducah.

Then, Next Thursday, the 11th,

come back and hear another splendid address, delivered by Hon. E. T. Franks, of Owensboro. The time has come when not only every MOTHER'S SON, BUT DAUGHTER AS WELL, should do every thing in their power to break up and end the war in Europe. Let's keep it away from our own shores and homes. Attend one, or better, both of these meetings. Perhaps some way may be shown for each of us to help. Again we urge you to attend.

JOHN H. BARNES, County Chairman.
H. P. TAYLOR, Speakers' Director.

M. J. REID

Well-known Rockport Citizen, Succumbs to Cancer Sunday.

Mr. M. J. Reid, one of Ohio county's best known and most highly respected citizens, died at his home in Rockport Sunday morning at nine-thirty o'clock, of cancer of the throat. Mr. Reid had been seriously ill for the past four months. He was a veteran of the Confederate army, and leaves a wife and six children, most of whom are married. After funeral services conducted by Rev. McAtee, of Central City, his remains were laid to rest in the family burying ground at Rockport. The Herald has suffered an especial loss in the death of Mr. Reid, for during the many years he acted as our correspondent, we learned to admire the clearness of expression, depth of vision and sterling character of this well known man. He was perhaps better known to our many readers as "Suggs," he having from time to time contributed some very able articles to this paper over that nom de plume.

EDITORS MEET IN LOUISVILLE.

The editors of Kentucky and Southern Indiana met in Louisville Monday for the purpose of formulating plans for the advertising of the Third Liberty Loan.

A good representation from the two States was on hand, and some valuable information was given the scribes by Mr. Gardner, president of the Gardner Advertising Agency, of St. Louis, relative to the advertising of the Third Loan from a newspaper standpoint.

In the afternoon the editors were taken out to Camp Zachary Taylor in automobiles, and had the pleasure of seeing some of our boys go through bayonet and other practice.

WAR COSTS BILLION EVERY THIRTY DAYS.

The war for world freedom is costing the United States \$1,000,000,000 a month or more than \$25,000,000 a day, says the Liberty Loan Committee of the Eighth District.

Few persons have grasped the meaning of this stupendous sum. What does this huge sum mean to the people of the United States? Here are some of the things it means:

That an obligation of \$330 has been piled up against every one of the 100,000,000 men, women and children in the United States. If it were necessary to pay off the present war debt at once, the head of a family of four would have to pay \$1,320, more available cash than the average family of that size has.

Freedom comes high. Every twenty-four hours Uncle Sam must spend and is spending more than \$25,000,000 at 25c a day for every man, woman and child in the nation. The people should realize that the vast sums appropriated to conduct the war were absolutely necessary to win the battles against the ruthless Prussian. Unless America spends now she will be enslaved later. Unless the people support the Government to the limit Uncle Sam will be forced to derive the money by taxation.

Uncle Sam believes and hopes the people will voluntarily lend him the money necessary to conduct the war. The Third Liberty Loan campaign, which will be launched April 6, should have the support of every man, woman and child in the nation. Invest in Liberty Bonds and make the victory not only sure, but quick.

U. S. ARTILLERY STOPS PLANNED GERMAN RAID.

Counter Barrage Puts End to Firing—Gas Given Enemy.

With the American Army in France—What promised to be a German attack on the American lines northwest of Toul was broken up by American artillery fire.

The enemy has heavily bombarded certain positions of the American lines and then had sent a sweeping trench mortar, firing from the west of Richecourt, started a box barrage, and from enemy machine guns came a rain of bullets. The American infantry emerged from their underground covers at the proper moment and advanced to meet the expected assault. Meanwhile the American artillery had started a counter barrage against the German side of No Man's Land and apparently this was effective, for, although the Americans waited, no Germans appeared. What happened on the other side of the line is not known. Enemy artillery fire had been heavy and some of the shots were well placed. The American gunners gave the enemy battery a severe drenching with gas.

AUTOMOBILE ACCIDENT.

Mr. Arthur McDowell, formerly of Williams' Mines but who has for some time resided in Indiana, was killed in an automobile accident in that state last Thursday. The remains reached his former home Monday morning and the burial took place that afternoon at the cemetery near Williams' Mines. Mr. McDowell leaves a wife and several children.

Mr. and Mrs. J. W. Daniel will leave this week for Ohio, where they will make their future home.

RESOLUTIONS OF RESPECT.

At a meeting of the Hartford bar and the officers of the court, April 1st, 1918, the following resolutions on the death of Mrs. Lelia A. Fogle, both of whom are honored members of the Hartford bar, were adopted: Resolved: While we feel how weak are mere words in the presence of a sorrow so profound, and a grief so deep, yet with a hope that the expression of our feelings of tender sympathy may, in some measure, soothe the heart ache from the inestimable loss of a loving and devoted wife and mother, we tender to the bereaved husband and sorrowing son and daughter, our sincere tribute of respect and honor to her worth as wife and mother, the highest meed of praise.

Second: We commend her christian life and influence in the church and Sunday School, a devout member, supporting by personal service and with her means, all the institutions of her church; a consistent follower of the Son of God, at whose tomb women first appeared on the resurrection day, "very early in the morning".

Third, be it further resolved, that a copy of these resolutions be furnished the members of the family and a copy be furnished to each of the local papers for publication.

SUNDAY SCHOOL CONVENTION.

The Ohio County Baptist Sunday School Convention met with Adaburg Baptist church last Sunday. Convention was called to order by President Rev. Birch Shields. A large crowd was present and much interest was manifested in the Sunday School work.

The report of schools showed all in a flourishing condition. A sumptuous lunch was served by the Adaburg church and every one went away feeling that the day was well spent.

NEW LAW OFFICE.

J. Edwin Rowe, formerly commonwealth Attorney, of this district has opened up an office in the Hawesville Bank building, for the practice of law. Mr. Rowe's reputation as a lawyer in this county is well known and his many friends here are well pleased that he has decided to cast his lot among us and will become one of the fixtures of the county.—Hawesville Clarion.

OHIO COUNTY'S QUOTA IN IN THIRD LOAN \$84,900.

For the Third Liberty Loan, Ohio county's quota is \$84,900. The county in the Second Liberty Loan had \$90,000 for its minimum—the target was \$148,000—the actual subscription totaled \$92,060, and was taken by 418 subscribers.

PRODUCE MORE POULTRY.

It is imperative that poultry and egg production be increased. Keep two laying hens for each member of the family.

MRS. J. E. FOGLE

Passes Away at Her Home Here Monday Evening.

The death of Mrs. J. E. Fogle which occurred at her home early Monday morning April first; comes as a profound shock to her wide circle of friends. While it was known she was critically ill, all hoped for recovery and years of continued activity. Medical skill and untiring devotion were of no avail. With that bravery with which she fought every inch of ground when she found the battle lost, like the brave soldier she made ready for the inevitable. Messages of love and inspiration went sent to loved ones far away, and words of counsel and blessing to those, with untiring devotion ministered to her comfort.

June 6, 1877, she was married to 56, only child of Vergil P. and Dorcas Barnes Addington. In infancy her parents dedicated her to God in Baptism. Rev. William Neikirk officiating. In her early young womanhood she united with the Methodist Church. She gave to her church her love and loyal support. June 6, 1877 she was married to Hon. J. E. Fogle a prominent attorney of the Hartford bar. Mrs. Fogle is survived by her husband, a daughter, Mrs. T. B. Petrie, of Indianapolis, Ind., a son McDowell Fogle, a young attorney, two granddaughters, Misses Ruth and Lelia Petrie. A noble woman has gone to a great reward.

Funeral services were conducted at the family residence Tuesday afternoon at 2:30 o'clock by Revs. D. Litchfield and R. D. Bennett, after which her remains were laid to rest in Oakwood cemetery.

ENGLISH HINDSIGHT.

"If we had realized the value of women in 1914-15 we might have been saved millions that have been wasted in our Army Canteens." This is the wall of Sir Johnstone Forbes-Robertson in London. And his judgment coincides with the action of parliament which gave the women of Great Britain the vote. The United States should take a tip and enfranchise women that their war activity may be put to the utmost service in time. Somebody jog the foresight of the United States Senators.

SOLDIERS' PARENTS INVITED.

Every parent living in Ohio County and having sons in the service of Uncle Sam is hereby extended a cordial and urgent invitation to join us in our third Great Patriotic Rally to be held at the Methodist church, at Hartford, Ky., Sunday April 7, beginning at 10 A. M. (new time).

BOND INVESTORS INCREASE BECAUSE OF LIBERTY BONDS

More than 15,000,000 persons are expected to subscribe to the Third Liberty Loan. Four million subscribed to the first issue and about 11,000,000 to the second loan.

Sixteen million buttons for subscribers have been ordered by treasury officials for the Third Liberty Loan. The system of honor rolls in each municipality, community or business organization, bearing the names of subscribers, and of honor flags, to be given to each city exceeding its quota, is expected to stimulate the number of subscriptions. This plan will disclose who subscribes and who refuses to buy.

Extensive preparations have been made for advertising the Third Liberty Bond campaign. Requests have been received from hundreds of newspapers publishing Sunday editions for 10,000,000 inserts showing the honor flag in colors, to be distributed April 7. Two hundred foreign-language newspapers have requested supplies of poster supplements.

A special train carrying French war relics, accompanied by Liberty Loan speakers and wounded French soldiers, will travel through the South and Southwest and perhaps elsewhere. The relics, which include some of the small guns, German helmets and other trophies, and Red Cross exhibits, recently were sent to the United States by the French government to assist in the bond campaign. The train will be sent through the St. Louis, Dallas and Atlantic federal reserve districts, starting April 6.

A LIBERTY LOAN PRAYER

St. Louis Minister Composes Appeal on Eve of His Departure For France.

Less than a week before he sailed for France in the service of the Y. M. C. A., Rev. Elmer T. Clark, Litt. D., former minister of the Shaw Avenue Methodist Episcopal Church, South, and former secretary of the St. Louis Ministerial Alliance, prepared the following prayer for the Third Liberty Loan for use on Liberty Loan Sunday, April 7th:

"Oh God, who dost ever guide the tread of the nation, born to serve mankind with an exalted unselfishness, bless all our people and their representatives in authority.

"In this time of crisis and judgment, inspire us to think, act and serve together in the common cause of a victorious righteousness. Touch our souls with a high sense of patriotic sacrifice. Consecrate our means as well as our men.

"Bless, we beseech Thee, the Third Liberty Loan with the benediction of Thy benignant favor. May no act or word from us impede its sanctified will. And arouse our enthusiasm to see it through to a most successful conclusion. Amen."

BUSINESS CONCERNS TABBED

Credit Men Keep Uncle Sam Posted on Ability to Buy.

Liberty Bond slackers among business houses throughout the nation are being revealed by credit men whose duty it is to analyze the financial statements of firms in all classes of trade.

Preliminary investigations of expert credit men in checking up the financial statements of many concerns in various businesses in all parts of the United States find that the percentage of Liberty Bonds of the first and second issues among their assets was startlingly small.

It has been suggested that banking institutions would be justified in bringing to the attention of their customers, particularly those who are borrowers, the necessity for these patriotic investments being made in reasonable proportions.

Credit men have undertaken to bring to the attention of the public the lukewarmness of many business houses in backing the government in its prosecution of the war. The government is in the war business not only to destroy Prussian autocracy but every vestige of disloyalty and opposition to the battle for world liberty.

It is clear that the people of England are in dire need of food and that the man power of the nation is waning.

A member of the Archbishop's party and the distinguished Britons were surprised and delighted with the enthusiasm of the American people to support the war. He said Americans have come to a realization of what the threat of German domination means to the world, and especially to America. He explained that many persons in Great Britain were slow to realize the necessity for shedding their blood upon the battlefields of France to halt the Hun.

LET HIM LIVE.

As long as flowers their perfume give,
So long I'd let the Kaiser live—
Live and live for a Million years,
With nothing to drink but Belgian tears,
With nothing to quench his awful thirst
But the salted brine of a Scotchman's curse.
I would let him live on a dinner each day,
Served with things from silver on a golden tray—
Served with things both dainty and sweet—
Served with everything but things to eat.
And I'd make him a bed of silken sheen,
With costly linens to lie between
With covers of down and fillets of lace,
And downy pillows piled in place
Yet, when to its comfort he would yield,
It should stink with rot of the battlefield;
And blood and bones and brains of men
Should cover him, smother him—and then,
His pillows should cling with the rotten cloy—
Cloy from the grave of a soldier boy.
And while God's stars their vigils keep,
And while the waves the white sand sweep,
He should never, never, sleep.
And through all the days, through all the years,
There should be an anthem in his ears,
"Ringing and singing, and never done
From the edge of light to set of sun,
Moaning and moaning and moaning wild—
A wronged French girl's unlawful child,
And I would build him a castle by the sea,
As fine a ship as ever could be,
Laden with water cold and sweet;
Laden with everything good to eat
Yet scarce does she touch the silver sands;
Scarcely may he reach his eager hands,
Than a hot and hellish molten shell
Should change his heaven into hell
And though he'd watch the wave-swept shore,
Our Lusitania would rise no more
In "No Man's Land," where the Irish fell,
I'd start the Kaiser a private hell;
I'd jab him, stab him, give him gas
In every wound I'd pour ground glass;
I'd march him out where the brave boys died—
Out past the lads they crucified.
In the fearful gloom of his living tomb,
There is one thing I'd do before I was through:
I'd make him sing, in a stirring manner,
The wonderful words of "The Star-Spangled Banner."

Hartford Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room for doubt. Read the public statement of a Hartford citizen:

R. L. Dever, proprietor grocery store, Union Street, Hartford, says: "I can recommend Doan's Kidney Pills as a good kidney medicine. My kidneys have bothered me and my back has troubled me with a dull mean ache. Doan's Kidney Pills have always relieved my back and regulated my kidneys and I am glad to praise them." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Dever had. Foster-Milburn Co., Props., Buffalo, N. Y. Advertisement.

strict of Columbia, to prevent rent profiteering in the District, was passed by the House by a vote of 220 to 104. Four members present did not vote. The Kentucky delegation lined up solidly in support of the Fourth District Congressman's anti-rent gouging measure which limits rent increases in Washington to 10 per cent. over that of September 30, 1916, and on new property to 10 per cent. of valuation. The bill now goes to the senate. Since the national capital has increased its population to more than 60,000, mainly because of the war activities, many property owners and the lessors of offices, apartments and rooms have boosted rentals from fifteen to 100 per cent. The Johnson bill is designed to protect those who have been the victims of these real estate sharks.

BETTER BE A DEAD HERO THAN A LIVING COWARD.

Abramo Dini is a brave soldier over on the Italian front. He is the type of man who has made the word soldier synonymous with courage, honor and chivalry. A real fighting man, he says, does not complain. He always obeys his officers. He is proud to serve that country which gave him a home, says the Owensboro Inquirer.

Just such a soldier is Abramo Dini. After nearly four years' service, when he has been wounded and has suffered all the hardships of an army at war, he still regards the "bit" he is doing as an honor and a privilege for himself and for his family.

Abramo has a cousin at camp Dodge, Iowa, Amerigo Dini one of the men who will make up the great national army. And to the new soldier in a new army, the veteran has written his advice.

"Better be a dead hero than a living coward. Always obey your officers. Be a good soldier."

Abramo's bit of war philosophy is written on a post card. It is so good that officials who have read it are thinking of using it to teach a still greater patriotism to their men.

Translated, the letter reads: "Dear Cousin:—At last, after a long and patient time that I have been waiting, I am able to know your address and I am ready to drop you a card, which I believe that is more safe and quick for my news to reach you.

"My health and that of my parents for the moment is fine and I hope yours is the same.

"Well, cousin, how do you like military life? What do you think of it? I hope that you like it well, and are proud of it. Amerigo, there is nothing better in the world for man to be proud of than that of being called by his country to fulfill his duty when in need of it, there is nothing better than to be useful for his country and its rights.

"Cousin, this is my advice to you, as an old soldier, you know I am, and have good experience of it after 41 months' service, and still hold my place yet. Be a good soldier, always obey your officers, never weary about anything and the most important I can recommend you, never be a coward, no never. If a day would come that you should face the enemy, be brave I say, always be brave, better a dead hero than a living coward, but I tell you I have often seen die in battle more cowards than brave soldiers. A coward soldier when in battle gets frightened right away and never knows what he is going to do and it happens that he loses his life quicker than another brave one would. So I say to you again—always be brave and make yourself honor as I and our other cousin did. To be wounded as we both have been and twice is nothing bad—it is an honor for our country and for our family.

"Your cousin,
"Abramo Dini, Maciano, China.
"Prov. Arrizzo, Italy."

PRO GERMANS—LOOK OUT FOR UNCLE SAM!

Charles Leies has been arrested, at Paducah, for making unpatriotic remarks. He is alleged to have said that the American government is no better than the German government.

Suspected of being a German spy, George Mayer, aged 40, a religious worker of the army Y. C. A. was arrested at Camp Logan, Tex.

The so-called "Woman spy" bill, which extends the espionage laws to enemy alien women, has passed the House and will likely pass the Senate.

A man 57 years old, speaking with a German accent, has been arrested on the premises of the Quartermaster's Depo, at Jeffersonville, Ind.

Two teachers and twenty pupils were seriously poisoned by food prepared at the school building at Maysville, Ky. A thorough investigation has been ordered.

Four men are under arrest, at Jersey City, charged with having set fire to the Jarvis warehouse, which resulted in a \$2,000,000 loss. Jacob E. Altman, the leader, was born in this country but his father was a German.

G. B. Pegouri, a farmer living near Louisville, recently plead guilty to the charge of hoarding flour and escaped prosecution by voluntarily agreeing to contribute \$50 to the Red Cross.

A dispatch from Minneapolis, Minn. says an attempt was made last week to destroy Dunwoody Institute, where a number of bluejackets were quartered. This is being investigated by a court of inquiry.

Charges that German spies have retarded the aircraft program, have been made by Senator Overman, of North Carolina.

Justice worked swiftly at Hoboken, N. J., when Joseph Reik expressed the hope that the American soldiers passing on parade would be sunk before reaching the battle-front. He was sentenced to jail for one year after being saved from violence at the hands of a mob.

Nine men, said to be German enemy, aliens were arrested at Jersey city N. J. the other day. They were found in the machine shops of

the Erie railroad.

State Food Administrators have been ordered to rigidly enforce the new rules applicable to all public eating places. Punitive measures must be imposed immediately upon proof of violation.

The most common test for determining if soil is acid or sour is by means of blue litmus paper, which can be obtained at a very small cost from nearly every druggist. A small quantity of moist soil from the field is compacted into a ball, the ball broken into halves, a strip of litmus paper laid across one part and the parts pressed firmly together again. After an hour or so the ball of soil should be again broken apart and the paper removed. If the paper shows a decided pink color the sample of soil is acid. If a deep-rooted crop such as alfalfa is to be grown, it will be well to test samples taken from both the surface soil and the subsoil.

NOT NOW.

"It's going to be a terrible deluge," remarked Japhet.

"Yes," replied Noah. "But we're lucky in having a good, clean ocean ahead of us with no submarines in it."

SMITH MFG. CO.

An old lady was traveling for the first time in a large city, and saw a glaring sign on the front of a high building which read: "The Smith Manufacturing Company."

As she repeated it aloud slowly she remarked to her nephew: "Lawsy Mercy! Well, I've heard tell of Smiths all my life, but I never knew before where they made 'em."

THE OVERHEAD.

The Boss—What's this item on your expense account, 'Overhead Expense, \$4.2'?"

Saleman—That was an umbrella I bought.

MISSOURI LEADS IN SALE OF WAR SAVINGS STAMPS.

Washington—Missouri with a total of \$9,015,880, leads the country in the sale of war savings stamps, according to the first statement of the campaign issued by the National War Savings Committee. The statement made public the other day and including sales from the beginning of the drive in December to the end in February also shows the Missouri River states, Nebraska, Missouri and Kansas, leading in the order named in per capita subscriptions. Maryland, however, advanced to second place in the per capita sales for the month of February alone, with New Mexico, Kansas and Missouri following in the order named.

ODDS ON BIG FIGHT.

That the Germans are stopped, 10 to 1.

That they don't get to Paris, 50 to 1.

That the British lick them, 50 to 3.

That the French lick them, 5 to 3.

That the Americans lick them, 5 to 2.

That none of the Kaiser's sons gets hurt, 100 to 1.

That Hindenburg wishes he were still fighting the Russians, 500 to 1.

That the Germans will follow with a peace offensive, 8 to 1.

That Russia will wish she had stuck to the ship, 5,000 to 1.

AN INCOME TAX RECEIPT.

Here's a new formula for computing your income tax: "Take your net income tax and deduct therefrom \$200 for each minor child; then add your house number, subtract the number of your motor license and divide the remainder by the age of your wife's sister."

DOG LAWS NEEDED.

Wool and mutton are commanding higher prices than ever before and supplies of wool are being depleted so rapidly that it will take some time after peace is declared to restock the wool trade, says Bulletin 935, "The Sheep-Killing Dog," issued by the United States Department of Agriculture.

The United States is experiencing the greatest shortage of mutton and wool in the history of the country. It is the duty of the American farmer to increase the supply.

The sheep-killing dog constitutes one of the greatest menaces to the success of the sheep industry.

The dog not only kills sheep but keeps out of the sheep business men who are otherwise inclined to go in to it.

The most effective method of dealing with the sheep-killing dog is through efficient legislation.

Notable progress has been made by several States in enacting good dog laws, and others are expected to take similar action.

No law, however well worded it may be, can be effective unless it is enforced and has the moral support of the people who are affected by it.

Uniform State dog laws are desirable.

WOULD FINE CHILDLESS.

"Married couples who remain childless while the country is at war should be adjudged guilty of an offense against the nation and penalized," said J. J. Fallon, corporation attorney, Hudson County, in an address at the Baby Congress, Hoboken, N. J. Mothers, he said, should realize the duty incumbent upon them to instruct their daughters in the knowledge they have gained by experience, so that their daughters marriage vow.

Patient—I'm not. I was only counting my money before you gave me gas."

GERMAN SPY SUSPECT HELD AT MORGANFIELD.

Morganfield, Ky.—Fred V. Schell, suspected of being a German spy, is now being held in jail. There does not seem to be any positive evidence against him but his actions have been suspicious. He was arrested in Sturgis several days ago. He claims, it is said, to be a deserter from the German navy, having deserted at Vera Cruz about five years ago.

When arrested a kit of small tools, a blank book with a lot of addresses in it, a miner's time and tonnage he had deposited \$260 in a bank in Oakland, Cal., in 1911, were among other things found on him.—Providence Enterprise.

GREAT GUNS!

New York.—Hudson Maxim, the inventor, declared Monday that he can construct a cannon that will shoot from London to Berlin, thus outclassing the reported big gun of the Germans which has been bombarding Paris. He added that it was a mere matter of the allies paying the price for such a gun, and that he did not think the expense would be warranted.

The following community creed is published in this season's announcement of farmers' institutes:

I believe in the integrity of the people.

I believe in my home, my church, my school and my business.

I believe in my community.

I believe in the enrichment of social and community life.

I believe in the elevation of the moral standards of my community.

I believe in the service of my fellow men.

I believe that to serve I must rise above selfishness and petty jealousies.

I believe in co-operation for community betterment.

I believe in the application of the Golden Rule to community affairs.

"Did you order a ton of coal?"
"I did not. I put my request for one respectfully on file."

FARMERS URGED TO MARKET WHEAT EARLIER.

The following telegram was received from Mr. Hoover:

"In order that we may comply with the urgent demands of the Allies for wheat and, at the same time, take care of our own domestic supplies, we urgently need this year an earlier and more complete marketing of the wheat in farmers' hands than usual. The Allies are taking from us fifty per cent of other cereals than wheat to mix in their bread. Inasmuch as the people in allied countries and the soldiers, must feel it is impossible for them to prepare bread made wholly out of other cereals and we must furnish them with sufficient wheat too maintain their bakery loaf I, therefore, appeal to all of the farmers in the State of Kentucky that they shall bring all of their wheat, except their necessary reserves for seed, to market before May 1st. This is a war call and a service for Uncle Sam who is fighting for his life. If your local miller is unable to buy all the wheat that is offered, market it in the other customary trade channels through which it will reach the Food Administration Grain Corporation."

HOOP SNAKE.

G. H. Stowe brought to town quite a curiosity in this section, this being a horn or hoop snake which he killed this morning on the Thomas Wood farm below Julien. The snake was plowed up out of the ground. It was perhaps two feet long and more than an inch in diameter at the thick part. It was a beautiful color and its skin looked more like highly varnished tapestry than anything else.

The peculiarity of these snakes is that in fighting the snake seizes its tail, which is tipped with a horny substance and is sharp pointed, in its mouth and rolls like a hoop at high speed. When it reaches its object it lets loose the "horned tail" and it sticks deep into whatever it is aimed at. At least this is the explanation of the modus operandi that was given today.—Hopkinsville new Era.

Speaking of long range guns re-
minds us of some long range threats.
What was it Von Hindenburg said
about being in Paris by April?

If you are patriotic
And can't shoulder a gun
Then buy a Liberty Bond
And help lick the Hun!

President Carranza did a thing the

German Kultur! Possibly some-
body made a mistake when they
said Kultur. Obviously they insert-
ed the letter "K" for a "V" and in-
advertently omitted the letter "e."

That spring has not yet fully ar-
rived is evidenced by the fact that we

Mr. Arthur Minton was in to see
us Saturday. Mr. Minton has just
finished a successful school at Yel-

That long range gun of the Huns
reminds us of the conversation of the
two darkeys over the shooting
proclivities of the guns of Uncle Sam
and Mexico when General Pershing
went in pursuit of Villa. One of the
darkeys said that "de Mexikins had
guns dat 'ud shoot 15 miles," when
the other darkey remarked: "Dat's
nuthin'-Uncle Sam has guns dat
shoot so fer dat all dey needs to git
you is yo' name and address."

We can't help but see a tendency
in the news dispatches to our met-
ropolitan papers to magnify the suc-
cesses of the Allied armies on the
battle front, and to minimize the
gains of the Teutons. We can't just
exactly see the feasibility of this,
and often wonder why the censors
do not let the news come through
just exactly as it is. However, those
in authority may know more about
this matter than we do, and we sup-
pose they know what they are doing.
But there is one thing sure—if we
were the guy in charge of the news
dispensing end of the war—we would
let the people know just exactly
how things were going, and if we
were getting licked, we'd say so. Lots
of people will fight when they are
mad, when patriotism alone will never
budge them, and if we know the
Hun is licking us, it makes us mad,
and big, little, old and young alike
feel like fighting.

The Third Liberty Loan drive
starts next Saturday, April 6th.
There will be a speaking and rally
at the court house on that date. Ev-
ery citizen of Ohio county who has
the welfare of his country the good
old U. S. A.—at heart should be pre-

sent and hear the addresses on that
occasion. Ohio county has not fully
awakened to the fact that it takes
men, money and munitions to win,
this war—more especially money, for
without money the men cannot
be fed and clothed and munitions
manufactured. So let's all wake up,
and see that Ohio county's quota of
the Third Liberty Loan is fully sub-
scribed in short order.

Bermuda Potato Crop.
It is estimated that the triumph or
fall crop of potatoes which will be
reaped in Bermuda will be 82,500
bushels, according to Vice Consul Still-
man W. Ellis, Hamilton. This is less
by 8,000 bushels than the fall crop of
1916, in spite of the fact that more
acreage was planted to potatoes the
past year. The reason given for this
by the director of agriculture is that
"the earlier plantings have been af-
fected by unfavorable seasons and will
not produce a normal crop. The fields
planted later give promise of good
yields."

Utilize Burning Mine's Blast.
At Zwickau, in Saxony, a fire is still

learning so sadly to understand put
even a burning mine to use, by convey-
ing the hot air through pipes to con-
servatories of vast extent and produe-
tiveness.

LETTER FROM A FOR-
MER OHIO COUNTIAN.

Whittier, Cal.

Editor Hartford Herald:
Please pardon me for asking space
in your paper for a few words to
friends in the county of my home
and birth.

Will say that when I came here
January 1, 1917, I was a physical
wreck, but have regained my health
to the extent that I feel like a new
man. Think I am able to do manual
labor again.

Well, citrus fruit growers will do
well here this year. Prices will be
better than they ever received be-
fore—as much contrast in price as
we have in tobacco and wheat in Ken-
tucky. This country is noted for
fruit and all kinds of vegetables.
There are quite a few Japs here,
and they do nothing but garden—cul-
tivating farms from one to forty
acres. So you see gardening here
is quite a business.

There is a great oil boom here,
and a streak of luck in production
will demand lots of labor.

As to the world-war, the people
here are very patriotic and deter-
mined—a great many boys from this
county being in France. Gen. Per-
ishing often notifies parents of a
wounded son, but this only stimu-
lates volunteering.

My mind often runs back to my
old Kentucky home, when as a boy
I used to chase the rabbit, squirrel,
possum and raccoon, and at the com-
ing of spring can be heard the shrill
call of Bobwhite to his mate. I can
imagine I hear all kinds of songsters,
such as the robin, catbird and the
cooing of the lonely doves, pouring
out their song of melody in token of
joy for the return of spring, with its
sunshine and showers that will de-
corate the earth with beautiful flow-
ers. This helps to make Kentucky
an ideal place.

With all our joys we have some
sorrows—that the world-war is still
raging. But we have come to stay—
yes, stay until the American flag
shall be permitted to wave victori-
ously over the seas as well as the
land, and that noted teacher, our
chief Executive, shall be able to
dictate to the Kaiser just such terms
peace as we will accept, and the
Kaiser heard to say what can I do
to gain your confidence and pardon.

We get your paper weekly, and it
is just like getting a letter from
home. May the past friendship con-
tinue. I am,

PERRY CROWDER.

Guard Against
Sore Throat.

Be on your guard right now a-
gainst sore throat. The atmosphere
is chock full of germs that cause
sore throat and, if your system is the
least bit clogged up or weakened,
which is likely at this time of year,
after eating heavy foods all winter,
you want to give it a thorough
cleansing at once by nature's own
method, but not by taking nasty,
old calomel or other drastic cathar-
tics. Just get a bottle of Vin Hep-
atica, the universal system purifier
and tonic. It will cleanse your liver,
kidneys, bowels and your entire
system and restore your vitality,
thus guarding you against colds,
sore throat and pneumonia, and
other maladies so prevalent this
time of year. It is nature's own pre-
ventive, as well as remedy, and we
so recommend it.

BRITON'S HIGHEST PRELATE PLEADS IN LOAN'S BEHALF

ARCHBISHOP OF YORK TELLS OF
ALLIES' NEEDS AND AMER-
ICA'S ABILITY TO HELP.

MONEY AND FOOD WANTED

Dollars Are Only Bullets That Never
Miss Mark, He Says in Urg-
ing a Vigorous Loan
Campaign.

By Dr. Cosmo Gordon Lang,
The Archbishop of York and
Primate of England.

"Come to England and France quickly with money, ships and food. There is a terrible strain upon my countrymen in the trenches. We are not whining and asking for sympathy, but you will be cheering us to new hope, if we know that all the power and resources of your country will be given to the future of civilization."

"You cannot send as many men as you wish, but you can send other things. Send money. Where men cannot go, money can. The ocean cannot stop it. Your dollars are the only bullets that will never miss their mark. You are going to have a great Liberty Loan soon. Put all the vigor into it that you can. Don't delay. We are asking you as brothers and partners, to come and help us. Every man, woman and child can help in this fight to free the world from the menace of German domination."

"We have to settle whether the spirit of irresponsible autocracy or the spirit of freedom is to prevail among the nations of the world. So vast and fundamental an issue naturally draws all the free nations of the world together. It must be settled now and forever, cost what it may. The world must decide whether it will submit to the domination of a spirit which, if it were to prevail, would plunge the nations of the world into a long, restless career of military rivalry. On such an issue there can be no such thing as compromise. We must be worthy of our task. We must recover for the world the atmosphere of freedom."

Following his address at a banquet given by the St. Louis Chamber of Commerce, the Archbishop of York authorized the above message to the American people.

His Grace, the Most Rev. Dr. Cosmo Gordon Lang, Archbishop of York and Primate of England, is the highest prelate in the Church of England save one. The Archbishop of Canterbury, Primate of All England, is the ranking archbishop of the Church of England. The office of Primate of England was created in the year A. D. 627. This ancient and honorable office and title has been held by many distinguished prelates. Dr. Lang is the ninety-eighth Archbishop of York and Primate of England. The office of Primate of All England was created in the year A. D. 597.

The difference between the office of Primate of All England and the Primate of England is slight. Centuries ago, to keep peace between two archbishops and primates, the added words "of all" to the title of the Primate of England solved the problem. The Archbishop of York not only is one of the heads of the Church of England, but is a member of the House of Lords. A member of the House of Lords owes no allegiance to any political party and therefore his actions as a statesman are not curbed or influenced. He represents the government and the people with equal interest and frequently fights the battles in Parliament of the laboring classes.

Dr. Lang is a Scotchman, the son of a Presbyterian minister, but he joined the Church of England early in life and while a youth began to study for the ministry. He rose from the rectorship of a small church when yet a young man and before he had attained the age of 60 was named Archbishop of York and Primate of England. He soon distinguished himself not only as a prelate but as a fearless and brilliant statesman and champion of the people in the House of Lords.

The Archbishop has visited many cities in the United States recently, where he delivered addresses before chambers of commerce and other civic organizations. He brings not only a message of brotherhood and appreciation from Great Britain, but he emphasizes the need for undivided support of the government of the United States by the people if the war is to be won. He pleads for a speeding up building, of money raising and mobilization. Dr. Lang makes

FINDING A DESIRABLE WIFE

Lonely Young Pioneer Who Did Not
Know How, Found It Was Really
Rather Simple.

In a new settlement in the thick forest, 20 miles or more from a city and ten miles from a railway, were located a sawmill and a few scattered homesteaders who worked at the mill when it was running and attended their little clearings at other times, relates a writer in the Chicago Tribune.

One day in the cook's camp, connected with the mill, the man and his wife in charge began joking the homesteader about being the only settler in the whole community without a wife and family.

"How can I help it?" said he. "There are no marriageable women that I know."

"Oh, there are lots of them that would be glad of a good home such as you could furnish," said they.

"Well, you just find me one," said the homesteader, "and I will make you a present of the best cow on the place."

Not to be bluffed, they accepted his proposition. Then they got busy, running over their list of acquaintances in the city, finally selecting, for their matchmaking expedient, an estimable lady of their acquaintance, living with her married sister in the city.

The victim selected for the sacrifice had reached that age when unmarried women cease to celebrate birthdays and begin to regard the tapering end of statistical possibility with more or less concern. The homesteader was about the same age, and, evidently, just as much concerned about his future on earth. A friendly invitation was forthwith extended to the lady to spend a week with the cook's family at the camp. It was innocently accepted.

The homesteader was conveniently invited to a Sunday dinner with the cook's family, and the tragedy was staged.

A case of love and desperation at first sight. In the afternoon, chaperoned by the cook and his wife, the party casually strolled over to the homesteader's bungalow, where they found everything "spick and span," with just enough incongruity in the arrangement to make the fingers of an orderly housekeeper tingle with ambition to put things in their proper corners.

A few months later the records in the county clerk's office gave a hint of further developments, which were staged at the sister's home in the city. The happy couple at once settled in their new home "and lived happily ever afterward."

In the excitement the poor cow was crowded off the stage and forgotten by the matchmakers, but a short time later, looking out one morning, they saw Mr. Homesteader driving a cow into camp—as good as his word.

South African Shoe Trade.

Cape Province has numerous firms which manufacture boots and shoes. Many of these are engaged in the production of high-class footwear though, as a rule, the better class of footwear that is popular in this country, is obtained from overseas, writes Consul General George H. Murphy, Cape Town. The foreign producer, with his highly specialized factories, is able, with the aid of the importing merchant, to flood the market here with enormous quantities of boots and shoes, either made for the South African trade, or forming a part of his surplus output. The result is that the South African producer is unable to command a sufficient market to warrant extensions of his plant to meet large calls which may be made by the wholesaler. He must content himself with producing high-grade footwear in small quantities for the retailer.

Large quantities of boots and shoes are being received from the United States, partly as a result of the impossibility of obtaining adequate supplies elsewhere.

When the Doctors Despaired.

There have been recorded during the war many being cured by accidental means, such as a sudden noise or an unexpected visitor, or as a startling question, and in one case at least a midnight fall out of bed. But one of the strangest cases belongs to a former war, observes a correspondent, where a soldier lay 15 months under the influence of catalepsy. Finally, in despair, the doctors ordered the bagpipes to be played near the patient's bed. That did the trick.

There is a story told of a skipper who had a medicine-chest containing cures numbered one to seven. For dyspepsia he administered a stiff dose of No. 7. For sprains, No. 2 was the bottle, and for rheumatism, No. 5 seemed to work the oracle. But on a lengthy voyage the skipper ran out of No. 7, so when next a member of the crew had a pain in his middle he dosed him with a mixture of 2 plus 5. Nobody had another pain during that voyage, or, at any rate, confessed to having one.

Will Purchase Foreign Hides.

II Sole, published at Milan, contains an article on the formation of an association for the purchase of foreign raw hides. The directing committee, it states, met at Rome and nominated as president Commendatore Gennaro Maffettone of Naples. The seat of the association in Rome was fixed at the Hotel Splendid, where the wool association is installed. It has been possible to enable the office to begin without delay the admission of associates, and the organization of purchases, finances, insurance, freights, etc.

ST. LOUIS TO OPEN LOAN CAMPAIGN ON GRAND SCALE

MONSTER OUTDOOR INSPIRA-
TIONAL MEETING PLANNED
FOR SATURDAY, APRIL 6.

150,000 CROWD EXPECTED

Vice-President Marshall to Speak—
Gov. Gardner and Other Notables Will Review Im-
mense Parade.

The Third Liberty Bond Campaign will be launched in St. Louis April 6 with a monster parade and inspirational meeting.

More than 50,000 soldiers and civilians are expected to take part in the parade, which will form at Newstead avenue and Lindell boulevard and march through Forest Park to Art Hill, where the patriotic meeting will be held.

Vice-President Thomas R. Marshall will review the parade and deliver an address to an audience it is predicted will number 150,000.

Gov. Gardner will introduce the Vice-President. Seated upon the reviewing stand will be the Governor, Mayor Kiel, military and civil representatives of all of the allied nations and many other prominent persons. Included in the guests of honor upon the platform will be the parents of St. Louis men who are at the front or in training camps. The fathers and mothers of these soldiers will carry service flags as a mark of patriotic distinction.

A huge service flag bearing a star for every St. Louisan serving in the army will fly from the mast above the reviewing stand. The largest American flag in the world will be suspended upon the side of the hill above the reviewing stand. The flag is 78 feet wide and 156 feet long and was presented to St. Louis by the Million Population Club.

Following Vice-President Marshall's address a dozen bands led by Sousa's band from the Great Lakes Training Station, playing in concert, will render the "Star Spangled Banner" as an American flag is lowered at retreat. Lieut. Commander Philip Sousa has been invited to personally lead his band.

While the parade is moving through Forest Park a squadron of aviators from Scott Field, Ill., will bombard St. Louis with Liberty Bond literature. The aviators will drop from the sky appeals to the people to invest in bonds and thereby back the brave men who are making the supreme sacrifice upon the blood-stained battlefields of Europe, that America and the world may be freed from the menace of German domination.

Daylight fireworks will be an attractive feature of the celebration. The pyrotechnics will be symbolical of the occasion. Rockets shot into the sky will burst and flash in colors American flags, Uncle Sams, the Statue of Liberty and other patriotic symbols.

April 6, the anniversary of America's entry into the war, was selected by Secretary McAdoo as the most fitting date to launch the Liberty Bond campaign. Mayor Kiel will proclaim a holiday in St. Louis and it is expected that business houses will close and everybody in the city who can possibly do so attend the inspirational meeting.

Five thousand soldiers from Jefferson Barracks, naval scouts from the St. Louis recruiting station, including a drum corps, a naval drum corps composed of women and Boy Scouts will head the parade. All civic and fraternal organizations will be represented in the parade.

Among the uniformed fraternal bodies which will participate in the parade are Knights Templar, Knights of Columbus, Knights of Pythias, Shriners, Elks and others.

The Chamber of Commerce, Rotarians, Jovians and other organizations will have delegations in the parade. There also will be a delegation from the trades and labor organizations. A dozen bands, military and civic, will furnish music.

A delegation from the Women's Council of National Defense and a Red Cross division will have a prominent place in the procession. Letter carriers and other federal and municipal employees also will be among the marchers. Every man, woman and child who participates in the parade is expected to carry an American flag and the next of kin of all soldiers are requested to carry service flags.

The parade will move at 2 o'clock. The Liberty Loan Committee intends to make April 6 the greatest patriotic demonstration day in the history of St. Louis.

Bond County Pledges Itself.

Advices from Bond County, Ill., received at headquarters, state that at a meeting in Greenville bankers and business men pledged themselves to underwrite the quota assigned to Bond County, whatever it might be, for the Third Liberty Loan bond issue. Guy R. Hollis, president of the State Bank of Hollis & Son, is county chairman. Bond County's subscription to the second Liberty Loan was \$209,400.

LETTER POSTAGE 3 CENTS

Under the new tax law beginning Friday, November 2, 1917, all letters must bear 3 cents postage (each ounce) instead of 2 cents, as in the past; except "drop" or local letters, that is letters for delivery at the post-office or on rural routes out of the office at which the letters are dropped or mailed, these being 2 cents. Postcards will require 2 cents instead of 1 cent as in the past.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD.

Practically a daily at the price of a weekly. No other newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe is now half-way into its third year, and, whether peace be at hand or yet far off, it and the events to follow it are sure to be of absorbing interest for many months to come.

These are world-shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

The Thrice-A-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Hartford Herald together for one year \$1.65.

PIONEER LIFE IN MISSOURI

Was "Fine for Men and Dogs," but Undoubtedly Also Hard on the Women.

"In Pioneer Families of Missouri," is printed a letter written by a woman to her sister in Kentucky, the Kansas City Star says:

"The men and dogs have a fine time, but we poor women have to suffer. We pack water from one-half mile to one mile for cooking and washing. My advice is stay where you are. But if you see anyone coming to this country, send a plank cradle for poor little Patrick. His poor little back is full of hard bumps, lying in a cradle George made out of a hollow log, with a piece of wood for a pillow. George and I attended a wedding last week. The preacher, a hard-shell Baptist, had a long buckskin overcoat. The groom was in his shirt sleeves, with white cotton pants that came just below his knees, and white cotton socks and buckskin slippers on his feet. The girl was dressed in a low-necked, short-waisted, short-sleeved white cotton dress that was monstrous short for a girl like her. She had on buckskin slippers and her hair was tied with a buckskin string, which is all the go here. And when the preacher was spelling and reading the ceremony from the book, the girl commenced sneezing and the buckskin string slipped off her hair, which fell all over her face, and everybody laughed."

An early marriage ceremony in Livingston county took place with the couple on one side of Medicine creek and Squire Jordan on the other side. The creek was booming. The young man swam the stream and brought the squire down from his house. Then the young man swam back and took his place beside the young woman. Squire Jordan couldn't swim. He wanted to postpone the ceremony a few days until the creek went down. The young folks wouldn't have it. They joined hands and told the squire to go ahead. The questions and answers were shouted across the creek and the knot was tied. Medicine creek got its name, according to tradition, because a country doctor in trying to swim it lost his "pill bags," as they were called.

POTASH ALWAYS IN DEMAND

Hard to Obtain Sufficient Quantity of This Most Important of Fertilizers.

Potash is perhaps the most important of fertilizers. Although potassium, in its combinations, is one of the most widely distributed of the elements, it is found massed in bulk in only a few places. The Saxon deposits at Stassfurt, and the beds in Alsace, are the world's chief sources of supply.

Elsewhere, potash is to be had only by the treatment of great quantities of material, with a small resultant yield. The case is not as bad as that of radium, where a ton of ore may give only a fraction of a grain of the precious metal; but it is bad enough to make its extraction an extremely costly process. The farmer's wife has always known how to leach potash from wood ashes in sufficient quantity to make the soft soap for the family washing, but this method does not pay commercially.

Horse's Jumping Powers.

If the reader will carefully measure out 39 feet an idea of a horse's capacity in this direction will be gathered. Such a distance a steeplechase horse called Old Chandler is reported to have covered at Warwick many years ago; and there is more than one apparently authentic record of a horse clearing over seven feet in height. The scene of such an exploit was at the Phoenix park, Dublin, and the horse was called Turnip. The animal belonged to Sir E. Crofton, and the duke of Richmond, then lord lieutenant of Ireland, wagered £500 that this height could not be cleared. A wall of the requisite dimensions was built, and when finished Turnip was ridden at it. He did what happened that his grace, not knowing that the feat was ready for performance, was not looking when the jump was made, and Turnip was therefore ridden over it again, not only successfully, but easily.—London Tit-Bits.

Catching Monkeys.

The well-known habit of monkeys to imitate the actions of man is cleverly utilized by wild-animal catchers in taking the agile, climbing creatures captive, says Popular Mechanics Magazine. The hunters' method is to walk about for some time within sight of the wild monkeys, wearing short boots. Then the boots are taken off and gum is placed in their bottoms, after which the men withdraw from the scene. Before long the curiosity of the imitative watchers in the trees gets the better of their caution and they descend and start to try on the boots, whereupon they discover that the footwear cannot be removed and, being unable to climb, are easily captured.

Strong Negatives.

There is one great advantage about keeping both glass and film negatives in envelopes made of transparent paper—that the negative can be looked at and identified without taking it out of its envelope. More negatives are damaged by being turned over to find some particular one than by the lapse of time, and the transparent envelope protects them from injury from this source. A system of filing and cataloging, by which any negative required can be found with a minimum of disturbance of the others, also tends to prevent damage.

BULLETIN NO. 25.

The following is the new conservation ruling made by the Federal Food Administration at Washington: "Since the drain of Rye and Barley has almost exhausted the supply of these grains we are wholly dependent on the voluntary assistance of the American People and we ask that the following rules shall be observed:

1. Householders to use not to exceed one and one-half pounds of wheat flour per person during each week. This means that not more than one and three-fourths pounds of Victory bread shall be used with the required percentage of substitutes and about one-half of a pound of cooking flour, pastries, pies, cakes and ect.

2. Public eating places and clubs to observe two Wheatless Days, Mondays and Wednesdays. In addition thereto, not to serve in the aggregate a total of more bread stuffs, macaroni, pastry, pies, cakes, wheat cereals, all together to amount to two ounces of wheat flour to each guest at each meal. No wheat products to be used unless specially ordered. Public eating places not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.

3. Retailers to sell not more than 24 lbs. of wheat flour to town customers and 48 lbs. to the country customer and in no case to sell wheat products without the sale of an equal weight of the other cereals. However, thru persuasion, we retain the use of the farmers certificate.

4. Bakers and grocers are asked that they sell the three-fourths pound of bread wherewith they sold the one pound before.

Bakers are asked not to purchase more than 70 per cent of their average monthly amount purchased in the four months prior to March 1st.

5. Manufacturers using wheat products for non-food purposes should cease such use at once."

With the arrival of harvest we should be able to relax such restrictions as the above. Until then, we ask for the necessary patience, sacrifice and cooperation of the distributing trades.

CLARENCE JAMES,
County Food Administrator.

GEN. PERSHING PRAISES AMERICAN FIGHTING MEN.

In a recent communication to Secretary of War Baker, the commander of the American Expeditionary Forces said:

"There has never been a similar body of men to lead as clean lives as our American soldiers in France. They have entered this war with the highest devotion to duty and with no other idea than to perform these duties as efficiently as is possible. They fully realize their obligation to their own people, their friends, and the country. A rigid program of instruction is carried out daily with traditional American enthusiasm. Engaged in healthy, interesting exercises in the open air, with simple diets, officers and men, like trained athletes, are ready for their tasks. Forbidden the use of strong drink, protected by stringent regulations against sexual evils, and supported by their own moral courage, their good behavior is the subject of the most favorable comments, especially by our allies. American Mothers may rest assured that their sons are a credit to them and to the Nation, and they may well look forward to the proud day when on the battle field these splendid men will shed a new luster on American manhood."

BILLY SUNDAYISM.

"There are two crowds in every church—the ruts and the antiruts." "Some people are scared to death that somebody may do something out of the ordinary that will keep a sinner out of hell."

"Today the church is being assaulted by isms and schisms and there isn't religion enough in them to float their dirty fallacies."

"The devil is a smart guy; he never has appendicitis or peritonitis; he's always Johnny-on-the-spot."

"Jesus Christ was a great disturber in His day. He disturbed the self complacency of that pliable plastic bunch of ecclesiastical crooks."

"The church is all right as long as she's in the world; she's all wrong when the world is in her, and one of the troubles of the church today is that she's joined the world."

"We need a panic in religion." "The churches are full of so-called religious crebaptyes that are trying to hand God a lemon."

"You can't work a shell game on God all your life."

U. S. RAIL CONTROL IS WATERWAY BOOM.

Government control of the railroads is the waterways' opportunity, says Chairman John H. Small of the Committee on Rivers and Harbors. To this end a definite plan is being worked out whereby the improved channels and waterways will co-operate with the railroads in handling freight and inland shipping, wherever possible.

President Wilson supports the plan as do all the big department heads. A sensational cut in the river and harbor improvement bill, amounting to millions, has been followed by the order for barges built by the government to handle shipping.

THANKS.

Dear Sirs: Enclosed find one dollar "in check," for the Hartford Herald to be sent to my address, as renewal.

Yours Respectfully,

Keeping Yourself Well

Run Down, Aching

people need a good tonic that will send the blood tingling through the body, enrich it by improving the digestion, and clean it by expelling the waste matter. Health is a matter of plenty of rich blood, free from impurities.

PERUNA

dispels inflammation of the blood making organs,—the digestion—gives tone and "pep" to the membranes that line the lungs and the digestive tract, and invigorates the entire system.

You can have health if you take care of yourself and take Peruna when you need it.

At your drug-gists.

If the peoples of the earth are not to become toiling millions for the Prussian Junkers and the Prussian Krupps, if they are not to be terror-ridden slaves at the mercy of a German Kaiser's will, Prussianism must be driven back within its own borders and kept there.

Not only English freedom, French freedom is at stake. Our own cherished institutions, our free government, all that our fathers fought for, all that free people prize, is threatened by an enemy that would impose his own hateful Kultur on every free institution in every liberty-loving land.

That is why the war must be fought on European soil. We are fighting in Europe now that we may not have to fight in America, on the very thresholds of our own homes, later.

The War Is Being Fought in Europe— But It Must Be Won Right Here at Home

Will you do your part in backing up our boys at the front? Will you help provide the things they need to bring victory and peace? You are not asked to give a cent—just *loan* your money to our Government at a good rate of interest and on the best security in the world.

We are fighting for the safety and liberty of our children, our homes, our country. No price is too great to pay for Victory.

Americans, you are called upon to back our armies in France, to furnish them the guns and shells and ships and airplanes, the enormous quantities of every sort of supplies that they must have to defeat the Prussian armies and drive them back across the Rhine.

If you can't pay cash for your bonds, you can borrow a part of the money at your bank, using the bonds as security, or you can buy them at your bank on easy partial payment plan. It is no trouble to buy Liberty bonds; it is no trouble to pay for them. See your banker today.
